

# SOVIET MATHEMATICS — DOKLADY

## ANNUAL INDEX OF AUTHORS

Volumes 29, 30

January–December 1984

Russian Toms 274–279

Abramov, A. P. <i>On a group of symmetries in an optimization problem</i> .....	30	299
Abramov, S. A. <i>The nature of the incompleteness of Hoare's system</i> .....	29	83
Adygezalov, A. A. See Maksudov, F. G.		
Agoshkov, V. I. <i>Spaces of functions with differential-difference characteristics and smoothness of solutions of the transport equation</i> .....	29	662
Agrachev, A. A. and Vakhrameev, S. A. <i>Nonlinear control systems of constant rank, and the bang-bang conditions for extremal controls</i> .....	30	620
Aĭzenberg, L. A. <i>A multidimensional analogue of a formula of Carleman</i> .....	30	241
Akhiev, S. S. <i>Fundamental solutions of functional differential equations and their representations</i> .....	29	180
Akhiezer, D. N. <i>On algebraic varieties that are symmetric in the sense of Borel</i>	30	579
Al'ber, Ya. I. and Notik, A. I. <i>Geometric properties of Banach spaces and approximate methods for solving nonlinear operator equations</i> .....	29	611
Aleshin, B. V., Bakaev, Yu. N. and Kuznetsov, P. I. <i>On the realization of <math>\epsilon</math>-invariance, using control, in systems of differential equations</i> .....	29	173
Aliiev, I. A. See Maksudov, F. G.		
Allakhverdiev, B. P. See Maksudov, F. G.		
Allakhverdiev, Dzh. Ė. <i>Necessary and sufficient conditions for continuity and closability of linear operators</i> .....	30	546
Andreev, A. E. <i>On the problem of minimizing disjunctive normal forms</i> .....	29	32
<i>On the design of self-correcting control systems</i> .....	30	103
Andrunakievich, A. V. See Andrunakievich, V. A.		
Andrunakievich, V. A. and Andrunakievich, A. V. <i>A completely semiprime maximal right ideal of a ring is two-sided</i> .....	30	625
Andrunakievich, V. A. and Ryabukhin, Yu. M. <i>Algebras without quasiregular subalgebras</i> .....	29	234
Anikonov, D. S. <i>Uniqueness of simultaneous determination of two coefficients of the transport equation</i> .....	30	149
Anikonov, Yu. E. and Bondarenko, A. N. <i>Multidimensional inverse problems for kinetic equations</i> .....	30	152
Arkhipov, V. P. and Sobolev, A. V. <i>Oscillation properties of degenerate second order differential operators</i> .....	29	278
Arsenin, V. Ya. See Tikhonov, A. N.		
Arutyunov, A. V. and Tynyanskii, N. T. <i>On necessary conditions for a local minimum in optimal control theory</i> .....	29	176

Asadullin, N. M. <i>Asymptotics of the solutions of a second order ordinary differential equation with a singularity in the coefficients</i> .....	30	1
Ashurov, R. R. <i>An asymptotic estimate of the spectral function of an elliptic operator</i> .....	29	461
Ashurov, R. R. and Bastis, A. I. <i>The spectral function of an elliptic differential operator with constant principal part</i> .....	29	120
Ashyralyev, A. O. and Sobolevskii, P. E. <i>Interpolation theory of linear operators and stability of difference schemes</i> .....	29	365
Asriev, A. V. and Rotar', V. I. <i>An estimate of the rate of convergence in the infinite-dimensional central limit theorem for the probability of hitting parallelepipeds</i> .....	30	577
Asta'ev, N. N. <i>Infinite-dimensional linear programming problems with a duality gap</i> .....	29	325
Azlarov, T. A. and Umarov, S. E. <i>An analogue of a theorem of Yu. V. Prokhorov for the hypergeometric distribution</i> .....	29	143
Babaev, M.-B. A. <i>Best approximation by functions of fewer variables</i> .....	30	629
Babenko, K. I. and Petrovich, V. Yu. <i>Demonstrative computations in the problem of existence of a solution of the doubling equation</i> .....	30	54
Babkov, O. K. <i>On rings of quotients of special algebraic extensions of semi-prime rings</i> .....	29	368
Baĭborodov, S. P. <i>Lebesgue constants and approximation of functions by Fourier and Fejer sums</i> .....	30	182
Baĭramogly, M. See Maksudov, F. G.		
Bakaev, Yu. N. See Aleshin, B. V.		
Balashov, L. A. <i>Divergence of Fourier-Walsh series</i> .....	29	85
Basmanov, V. N. <i>Covariant functors of finite degrees, and connectivity</i> .....	30	785
Bastis, A. I. (see also Ashurov, R. R.)		
<i>A generalized localization principle for the N-fold Fourier integral</i> .....	30	447
Belolipetskii, A. A. and Ter-Krikorov, A. M. <i>On a class of solutions of an abstract nonlinear parabolic equation near a bifurcation point</i> .....	30	697
Belov, V. Ya. <i>On a formula of Morse in the critical case</i> .....	29	37
Bentkus, V. Yu. <i>Asymptotic expansions for sums of independent random elements of a Hilbert space</i> .....	30	498
Berkolaiko, M. Z. <i>On traces of generalized spaces of differentiable functions with mixed norm</i> .....	30	60
Bernik, V. I. <i>A proof of A. Baker's conjecture in the metric theory of transcendental numbers</i> .....	30	186
Besov, O. V. <i>Estimates of <math>L_p</math>-moduli of continuity and imbedding theorems for a domain with the flexible horn condition</i> .....	29	329
Bettikher, A. [Böttcher] and Zil'bermann, B. [Silbermann] <i>Toeplitz determinants with symbols from the Fisher-Hartwig class</i> .....	30	301

Bezmenov, I. V. <i>On the existence of a limit profile of shock-wave type for second-order difference schemes</i> .....	30	5
Bezrukov, S. L. <i>A description of all the solutions of a discrete isoperimetric problem having critical cardinality</i> .....	30	667
Bitsadze, A. V. <i>On the theory of nonlocal boundary value problems</i> .....	30	8
<i>On a class of exact solutions of Lorentz-covariant equations</i> .....	30	65
Blank, M. L. <i>Ergodic properties of discretizations of dynamical systems</i> .....	30	449
Boboev, K. See Romanov, V. G.		
Boĭmatov, K. Kh. and Kostyuchenko, A. G. <i>The distribution of eigenvalues of the equation <math>Au = \lambda Bu</math> in the whole space</i> .....	30	244
Bokut', L. A. <i>New examples of groups with standard basis</i> .....	30	67
Boltyanskii, V. G. and Chabukiani, T. A. <i>A solution of the Szökefalvi-Nagy problem for three-dimensional convex bodies</i> .....	30	755
Bondarenko, A. N. See Anikonov, Yu. E.		
Borovskikh, Yu. V. <i>On normal approximation in infinite-dimensional spaces</i> .....	30	548
Bratishchev, A. V. <i>Sufficient conditions for interpolatability of a set in classes of entire functions characterized by an indicator</i> .....	30	758
Brëgman, L. M. and Naumova, N. I. <i>Arbitration solutions with ideal point generated by systems of functions</i> .....	30	583
Brykalov, A. S. <i>Some boundary value problems for differential equations and inclusions</i> .....	30	633
Bubnov, B. A. <i>A mixed problem for a class of nonclassical equations</i> .....	29	238
Bugadze, V. M. <i>Absolute convergence of the Fourier-Haar series of a composition of functions</i> .....	30	398
Bukhvalov, A. V. <i>Interpolation of operators in spaces of vector-valued functions, with applications to singular integral operators</i> .....	30	401
<i>Interpolation of generalized Sobolev and Besov spaces with an application to the trace theorem for Sobolev spaces</i> .....	30	790
Bulavskii, V. A. and Yakovleva, M. A. <i>Generalized tridiagonal matrices and Sturm's theorem</i> .....	29	185
Bulinskii, A. V. <i>On measures of dependence that are close to the maximal correlation coefficient</i> .....	30	249
Burgin, M. S. <i>Inductive Turing machines with a multiple head, and Kolmogorov algorithms</i> .....	29	189
Bykov, A. A. <i>A stable numerical method for constructing a fundamental matrix for a system of ordinary differential equations</i> .....	29	1
Chabukiani, T. A. See Boltyanskii, V. G.		
Chan Dyk Van <i>Behavior of solutions of boundary value problems for nonlinear equations with coefficients of arbitrary growth for unbounded increase of the order of the equations</i> .....	29	507
Chelkak, S. I. <i>Sharp conditions for regularity of generalized solutions of fourth order quasilinear elliptic systems</i> .....	30	743

Cherkasskiĭ, B. V. See Nesterov, Yu. E.	
Chibrikova, L. I. <i>Solvability and application of an integral equation of Carleman</i>	30 490
Chigogidze, A. Ch. <i>Uncountable powers of the line and the natural series, and <math>n</math>-soft mappings</i>	30 342
Chistov, A. L. See Grigor'ev, D. Yu.	
Chizhonkov, E. V. <i>On a system of equations of magnetic hydrodynamic type</i>	30 542
Choban, M. M. <i>On Baire isomorphisms and Baire topologies. Solution of a problem of Comfort</i>	30 780
Chobanyan, S. A. <i>The structure of the set of sums of a conditionally convergent series in a Banach space</i>	30 438
Chubarikov, V. N. <i>Multiple trigonometric sums with prime numbers</i>	30 391
Chukhrov, I. P. <i>On the number of minimal disjunctive normal forms</i>	29 714
Dao Chong Tkhi [Dao Chong Thi] <i>Multivarifolds and minimization problems for functionals of multidimensional volume type</i>	29 620
Davydov, Yu. M. <i>The architectural matrix of approximate viscosity</i>	30 460
Demirchyan, K. S. and Rakit'skiĭ, Yu. V. <i>On filtering components with large derivatives in differential systems</i>	30 671
Denisov, A. M. <i>A method for solving equations of the first kind in Hilbert space</i>	29 49
Derzhavets, B. A. <i>Spaces of functions analytic in convex domains in <math>C^n</math> and having given behavior near the boundary</i>	29 671
Dranshnikov, A. N. <i>Absolute extensors in dimension <math>n</math> and <math>n</math>-soft mappings</i>	30 75
Drozhzhinov, Yu. N. and Zav'yalov, B. I. <i>Comparison theorems of Tauberian type</i>	30 680
Dubinskiĭ, Yu. A. <i>Fourier transformation of analytic functions. The complex Fourier method</i>	29 247
Dubrovin, B. A. and Novikov, S. P. <i>On Poisson brackets of hydrodynamic type</i>	30 651
Duños-Ruis [Duyos Ruiz], S. M. <i>Universal functions and the structure of the space of entire functions</i>	30 713
D'yakov, E. G. <i>Asymptotic minimization of the computational work for steady-state problems of meteorology</i>	30 258
Dynkin, E. M. <i>On the classes <math>B_p^\alpha</math> for <math>0 &lt; p &lt; 1</math></i>	29 357
Dzhuraev, A. <i>On some new mixed problems</i>	29 5
<i>The theory of some systems of singular integral equations on two-dimensional bounded domains</i>	30 675
Ènol'skiĭ, V. Z. <i>On solutions in elliptic functions of integrable nonlinear equations associated with two-zone Lamé potentials</i>	30 394
Eremenko, A. È. and Lyubich, M. Yu. <i>Iterates of entire functions</i>	30 592
Evdokimov, S. A. <i>Dirichlet series proportional to the Andrianov zeta-function in the theory of Siegel modular forms of degree 3</i>	30 17
Evstigneev, I. V. <i>An optimality principle and an equilibrium theorem for controlled random fields on a directed graph</i>	29 89

Evtushenko, Yu. G. and Purtov, V. A. <i>Sufficient conditions for a minimum for nonlinear programming problems</i> .....	30	313
Fage, D. M. [Dimitri M. Fagé] <i>On solution of the two-phase Stefan problem by the decomposition method</i> .....	30	538
Faĭnberg, E. A. See Sonin, I. M.		
Farber, M. Sh. <i>Mappings into a circle with minimal number of critical points, and multidimensional knots</i> .....	30	612
Fedosov, V. P. and Yanenko, N. N. <i>Partial differential equations of half-integral degree</i> .....	29	607
Fedotov, A. M. <i>Generalized Bayesian decision procedures for operator equations in Hilbert space</i> .....	30	100
Feĭgin, V. I. <i>Spectral asymptotics for pseudodifferential operators in <math>R^n</math></i> .....	29	273
Feĭzullaev, R. B. <i>A semigroup characterization of compact regular closed sets with arcwise connected interior in Euclidean spaces</i> .....	29	317
Filinkov, A. I. See Mel'nikova, I. V.		
Filippov, V. V. <i>On the existence and properties of solutions of ordinary differential equations and differential inclusions</i> .....	30	616
Fursikov, A. V. <i>Space-time moments and statistical solutions concentrated on smooth solutions of the three-dimensional Navier-Stokes system or a quasilinear parabolic system</i> .....	29	72
Gabov, S. A. <i>Explicit solution and existence of a limiting amplitude for a problem in the dynamics of a stratified fluid</i> .....	30	190
<i>The angular potential for an equation of S. L. Sobolev and its applications</i>	30	405
Gabov, S. A. and Shevtsov, P. V. <i>On a differential equation of the type of Sobolev's equation</i> .....	29	411
Gachok, P. V. <i>Construction of models of dynamical systems with a strange attractor</i> .....	29	123
Gadzhiev, G. A. <i>On the multiparameter spectral theory for a quadratic operator pencil</i> .....	29	348
Galaktionov, V. A. <i>On a nonlinear heat equation with a nonpower coefficient in a bounded domain</i> .....	29	194
Galaktionov, V. A., Kurdyumov, S. P. and Samarskiĭ, A. A. <i>On the method of stationary states for nonlinear evolution parabolic problems</i> .....	30	554
Gal'perin, G. A. <i>On the existence of nonperiodic and nondense billiard trajectories in polygons and polyhedra</i> .....	29	150
Ganzha, V. G. See Valiullin, A. N.		
Gaponenko, Yu. L. <i>The method of successive iterations for an equation of the second kind</i> .....	30	72
<i>On the accuracy of a solution of an ill-posed problem for a finite level of error</i> .....	30	195
Garnaev, A. Yu. and Gluskin, E. D. <i>On widths of the Euclidean ball</i> .....	30	200

Gasarov, I. I. and Rikun, A. D. <i>On necessary and sufficient conditions for unizxtremality in nonconvex mathematical programming problems.....</i>	30	457
Gasparyan, A. S. <i>Inequalities for hyperbolic polynomials.....</i>	29	667
Gavrilenko, Yu. V. <i>Monotonic theories of accessible numbers.....</i>	29	415
Geche, F. I. <i>Continuous endomorphisms and isomorphisms of abstract analytic spaces that commute with generalized differentiation operators .....</i>	29	352
Gershkovich, V. Ja. <i>Two-sided estimates of metrics generated by absolutely nonholonomic distributions on Riemannian manifolds.....</i>	30	506
Gerver, M. I. and Nadirashvili, N. S. <i>An isometricity condition for Riemannian metrics in a disk.....</i>	29	199
Gikhman, I. I. <i>Two-parameter fields of diffusion type.....</i>	30	309
Gindikin, S. G. See Vvedenskaya, N. D.		
Gluskin, E. D. See Garnaev, A. Yu.		
Gol'dman, M. I. <i>On embedding Nikol'skiĭ-Besov spaces with moduli of continuity of general form into Lorentz spaces .....</i>	30	11
Gol'dshtein, M. Sh. <i>A limit theorem for the distribution of eigenvalues of the energy operator of a one-dimensional continuous system of quantum statistical mechanics .....</i>	30	798
Golovan', V. D. <i>On the rectifiability of quasiconformal curves.....</i>	30	511
Goloviznin, V. M., Ryazanov, M. A., Samarskiĭ, M. A. and Sorokovikova, O. S. <i>Completely conservative correction of fluxes in problems of gas dynamics</i>	29	44
Goncharskiĭ, A. V. and Stepanov, V. V. <i>On the existence of smooth solutions in problems of focusing electromagnetic radiation .....</i>	30	709
Gorbunov, V. A. <i>A characterization of residually small quasivarieties.....</i>	29	204
Gorodetskiĭ, V. V. <i>The central limit theorem and an invariance principle for weakly dependent random fields.....</i>	29	529
Grigor'ev, D. Yu. and Chistov, A. L. <i>Fast decomposition of polynomials into irreducible ones and the solution of systems of algebraic equations.....</i>	29	380
Grinevich, P. G. <i>Commutating matrix differential operators of arbitrary rank</i>	30	515
Gubreev, G. M. <i>Spectral analysis of the differentiation operator, and the Muckenhoupt condition.....</i>	30	519
Gurvich, V. A. <i>Some properties and applications of complete edge-chromatic graphs and hypergraphs.....</i>	30	803
Gushchin, A. K. and Mikhaĭlov, V. P. <i>On uniform quasistabilization of the solution of the Cauchy problem for a hyperbolic equation .....</i>	29	533
Guts, A. K. and Levichev, A. V. <i>On the foundations of relativity theory.....</i>	30	253
Ibragimov, A. I. and Landis, E. M. <i>On the trichotomy of solutions of the Neumann problem for the Laplace equation.....</i>	29	285
Ibragimov, I. A. <i>Some limit theorems for functionals of random walk .....</i>	29	627
Il'in, V. A. <i>On the absolute and uniform convergence of expansions in eigenfunctions and associated functions of a nonselfadjoint elliptic operator..</i>	29	10
Il'in, V. P. See Valiullin, A. N.		

Il'yasov, N. A. <i>Imbedding theorems for some classes of periodic functions in <math>L_p</math>, <math>1 \leq p \leq \infty</math></i> .....	29	675
Iskenderov, A. D. <i>On variational formulations of multidimensional inverse problems of mathematical physics</i> .....	29	52
Ivankov, A. L. See Prilepko, A. I.		
Ivanov, M. S. <i>Representation of entire functions by series of exponentials</i> .....	30	595
Ivanov, N. V. <i>Algebraic properties of the Teichmüller modular group</i> .....	29	288
Ivchenko, G. I. and Tsukanov, S. V. <i>On a new way of treating frequencies in the method of grouping observations, and the optimality of the <math>\chi^2</math> test</i> ...	30	79
Ivochkina, N. M. <i>Solution of the Dirichlet problem for some equations of Monge-Ampère type</i> .....	30	717
Ivrii, V. Ya. <i>On precise asymptotics of the eigenvalues for two classes of differential operators in <math>\mathbf{R}^d</math></i> .....	29	464
<i>On the asymptotics of the discrete spectrum of the Schrödinger operator for a system of <math>n</math> particles</i> .....	30	159
<i>Exact classical and quasiclassical asymptotics of the eigenvalues for spectral problems on manifolds with boundary</i> .....	30	263
Kabanikhin, S. I. (see also Romanov, V. G.)		
<i>On the solvability of inverse problems for differential equations</i> .....	30	162
Kabanov, Yu. M., Liptser, R. Sh. and Shiryaev, A. N. <i>Estimates of proximity in variation of probability measures</i> .....	30	351
Kakosyan, A. V., Klebanov, L. B. and Yanushkevichyus [Januškevičius], R. V. <i>Probability applications of an inequality of A. N. Kolmogorov</i> .....	30	683
Kamynin, L. I. and Khimchenko, B. N. <i>An interior derivative theorem for a second order parabolic equation</i> .....	30	808
Kanovich, M. I. <i>On the independence of invariant propositions</i> .....	29	425
<i>A solution of Rogers' problem on the relation between the strong and weak recursion theorems</i> .....	30	762
Kapustin, N. Yu. <i>On generalized solvability of the Triconomi problems for a parabolohyperbolic equation</i> .....	29	126
<i>On estimates of anti a priori type for the eigenfunctions and associated functions of some differential operators</i> .....	29	467
<i>Order sharp anti a priori estimates for eigenfunctions and associated functions of an elliptic operator</i> .....	30	165
Karatsuba, A. A. <i>On zeros of the Riemann zeta-function</i> .....	29	537
<i>Quadratic residues and nonresidues in sparse sequences</i> .....	30	767
Kashapova, F. R. <i>Isolation of classes of constructively derivable theorems in a many-sorted intuitionistic set theory equivalent to second-order arithmetic</i> .....	29	583
Kasparov, G. G. <i>Lorentz groups: K-theory of unitary representations and crossed products</i> .....	29	256
Katrakhov, V. V. See Kipriyanov, I. A.		

Katrakhov, V. V. and Katrakhova, A. A. <i>The finite-element method for some degenerate elliptic boundary-value problems</i> .....	30	720
Katrakhov, V. V. and Sitnik, S. M. <i>A boundary value problem for the steady-state Schrödinger equation with a singular potential</i> .....	30	468
Katrakhova, A. A. See Katrakhov, V. V.		
Kel'mans, A. K. <i>On homeomorphic imbeddings of graphs with given properties</i> .....	29	130
Khaïdarov, A. <i>A class of inverse problems for elliptic equations</i> .....	30	294
Carleman estimates and inverse problems for hyperbolic equations .....	30	740
Khapaev, M. M. <i>On an algorithm for integrating singularly perturbed systems</i> .....	30	570
Khasanov, A. B. <i>The inverse problem of scattering theory for a system of two nonselfadjoint first-order equations</i> .....	30	145
<i>The inverse problem of scattering theory on a semiaxis for a system of difference equations</i> .....	30	573
Khatskevich, V. A., Shmul'yan, Yu. L. and Shul'man, V. S. <i>On equivalent contractions</i> .....	30	338
Khenkin, G. M. <i>The Hartogs-Bochner effect on CR-manifolds</i> .....	29	78
Khimchenko, B. N. See Kamynin, L. I.		
Khokhlov, Yu. E. <i>On the solvability of exterior inverse boundary value problems for analytic functions</i> .....	30	387
Khovanskii, A. G. <i>Analogues of the Alexandrov-Fenchel inequalities for hyperbolic forms</i> .....	29	710
Kim, K. V., Nesterov, Yu. E. and Cherkasskii, B. V. <i>An estimate of the effort in computing the gradient</i> .....	29	384
Kipriyanov, I. A. and Katrakhov, V. V. <i>A boundary value problem for second order elliptic equations in the presence of singularities at isolated boundary points</i> .....	29	470
Kirichenko, V. F. <i>Hermitian homogeneous generalized almost Hermitian manifolds</i> .....	30	267
Klebanov, L. B. See Kakosyan, A. V.		
Kolesnikov, O. N. <i>Sections of multivalued mappings with values in semistratifiable and ordered spaces</i> .....	30	27
Konyagin, S. V. See Vol'berg, A. L.		
Kopylov, G. N. and Levin, A. Yu. <i>On the realizability of a stochastic multiproduct flow</i> .....	29	631
Kostyuchenko, A. G. See Boïmatov, K. Kh.		
Kovalevskii, M. A. <i>On difference equations for the determination of coupling factors</i> .....	30	272
Kozlov, S. M. and Molchanov, S. A. <i>On conditions for applicability of the central limit theorem to random walks on a lattice</i> .....	30	410
Krasil'shchik, I. S. See Vinogradov, A. M.		
Kravchenko, A. A. <i>On transformation describing one-dimensional rheological models</i> .....	30	107

Krichevskii, R. E. <i>Almost injective mappings and hash functions</i> .....	30	205
Kriksin, Yu. A. <i>On strengthened regularization and some of its applications</i> .	30	471
Krivtsov, V. N. <i>On deductive possibilities of negation-free intuitionistic analysis</i> .....	29	94
<i>Immersion of intuitionistic type theory in negation-free intuitionistic type theory</i> .....	30	111
Kronberg, A. A. <i>On some algorithms for solving boundary-value problems for the Laplace and Poisson equations</i> .....	30	414
Krylov, N. V. <i>On estimates for the derivatives of solutions of nonlinear parabolic equations</i> .....	29	14
Kucherenko, V. V. and Motylev, L. Yu. <i>A nonstrictly hyperbolic equation with nonsmooth characteristics</i> .....	29	634
Kuchminskaya, L. I. <i>Nonlinear differential operator equations and their applications</i> .....	30	317
Kud'yavin, V. S. <i>Behavior of a class of mappings, quasiconformal in the mean, at an isolated singular point</i> .....	30	209
Kufarev, B. P. and Sokolov, B. V. <i>K-limits of mappings with bounded distortion</i> .....	30	83
Kurbatov, V. G. <i>On the local Fredholm property of a difference operator</i> .....	29	56
Kurdyumov, S. P. See Galaktionov, V. A.		
Kuzichev, A. A. <i>On the representation of arithmetic in combinatorial systems</i>	30	417
Kuznetsov, P. I. See Aleshin, B. V.		
Kuzyk, A. M. and Makarov, V. L. <i>An estimate of the accuracy of the method of summarized approximation of the solution of the abstract Cauchy problem</i>	29	208
Labsker, L. G. <i>Characterization of Tchebycheff systems and sufficient conditions for their nonextendibility</i> .....	29	474
Landis, E. M. (see also Ibragimov, A. I.)		
<i>On the dependence on the geometry of the domain of the uniqueness classes of the solution to the second initial-boundary value problem for the heat equation in an unbounded domain</i> .....	29	292
Laricheva, G. A. <i>Dynamical systems generated by quasihomogeneous multivalued mappings</i> .....	29	430
Lavil', G. and Ramadanov, I. P. <i>On the complex Monge-Ampère equation</i> ....	29	261
Ledyayev, Yu. S. <i>Theorems on an implicitly defined multivalued mapping</i> .....	29	545
Levendorskii, S. Z. <i>Asymptotics of the spectrum of problems with constraints</i>	29	480
Levichev, A. V. See Guts, A. K.		
Levin, A. Yu. See Kopylov, G. N.		
Levin, V. L. <i>The problem of mass transfer in a topological space, and probability measures having given marginal measures on the product of two spaces</i> .....	29	638

Levitan, B. M. and Savin, A. V. <i>Examples of Schrödinger operators with almost periodic potentials and nowhere dense absolutely continuous spectrum</i> .....	29	541
Liptser, R. Sh. See Kabanov, Yu. M.		
Luk'yanov, N. A. <i>An a posteriori estimate of the accuracy of solutions of boundary value problems</i> .....	30	558
Lyashenko, A. A. <i>On non-almost-periodicity of solutions of S. L. Sobolev's equation</i> .....	30	474
Lyashko, S. I. <i>Optimal pulsed control of linear systems with distributed parameters</i> .....	29	484
Lyubich, M. Yu. See Eremenko, A. È.		
Makarov, N. G. <i>Defining subsets, the support of harmonic measure, and perturbations of the spectra of operators in Hilbert space</i> .....	29	103
Makarov, V. L. (see also Kuzyk, A. M.)		
Makarov, V. L. and Vasil'ev, V. A. <i>Information equilibrium and the core in generalized exchange models</i> .....	29	264
Makhmudov, A. P. <i>Nonlinear multiparameter spectral problems for a system of first-order ordinary differential equations, and on the completeness of their system of eigenfunctions</i> .....	29	276
Nonlinear perturbations of regular spectral problems with a parameter in the boundary conditions and the completeness of their eigenfunctions.....	30	588
Makin, A. S. <i>On sharp estimates for eigenfunctions and associated functions of a second order elliptic operator</i> .....	30	812
Makin, R. S. <i>On the spectrum of the steady-state single-speed transport equation with isotropic scattering</i> .....	29	59
Maksimov, V. M. <i>A formal theory of harmonic equations and polynomials relative to commutative algebras</i> .....	30	562
Maksudov, F. G. and Aliev, I. A. <i>Smoothness properties of the symbol of a multidimensional singular integral generated by a generalized shift operator</i> .....	30	686
